

Press Release

Kemtah Awarded Health Care RFP Development Contract

Albuquerque, NM

April 7, 2008

The Kemtah Group, a leading provider of IT Transformation services, today announced that it has been awarded a contract by a major California-based health care provider to develop and release an RFP for a patient tracking system. This system is vital to the hospital since it provides the logistics function necessary to support efficient use of hospital resources in providing patient care. Kemtah's project manager will facilitate the writing of the RFP, developing system specifications as well as preparing the evaluation criteria for reviewing the responses.

"We are excited about expanding our relationship with this customer. Kemtah's experience in both RFP development and project management best practices were key factors in our selection," said Stephen V. Wade, Kemtah's President.

**About The Kemtah Group**

Headquartered in Albuquerque, New Mexico, the Kemtah Group is a premier IT Transformation Services and Support firm delivering IT Service Management and technology support throughout North America. The company's footprint of service locations throughout the U.S., Canada and Latin America enable the Kemtah Group to provide local, reliable, cost-effective IT support.
