

FOR IMMEDIATE RELEASE

Kemtah Awarded Data Warehouse Support Contract

May 1, 2009, Albuquerque, NM

The Kemtah Group, a leading provider of IT Transformation services, announced today that it has been awarded a contract to provide support for a data warehouse implementation. This contract was awarded under the state's IT pricing agreement, which Kemtah was awarded in 2007, and is only one of a series of contracts Kemtah has been providing for several state agencies.

For this engagement, Kemtah will provide a hardware needs assessment then deploy, configure, and document the infrastructure for the agency's DataWarehouse system. In addition, Kemtah will provide the assessment report, project reports, and configuration specifications.

"We find it extremely rewarding to work with this State agency because they are serving a part of our community with significant needs. This data warehouse project means they will be able to review their clients' needs and histories more closely which will lead to better services. This project will also save already taxed state workers significant time and effort in their reporting and referring efforts." said Stephen V. Wade, Kemtah's President.

Kemtah has been providing IT infrastructure support, best practices consulting, IT project management, and IT assessment services as well as a wide variety of other IT services for over 20 years.

About Kemtah

Headquartered in Albuquerque, New Mexico, the Kemtah Group is a premier IT Infrastructure Support and Transformation Services firm delivering IT Service Management and technology support throughout North America. Our experts help commercial and government organizations effectively optimize the people, processes, and technologies that comprise their IT departments using global standards such as ITIL, CoBIT, and ISO. Kemtah's managed service engagements have on average achieved cost reductions of 30% - 40% while simultaneously increasing productivity by 25% - 30%. We achieve these savings year-over-year through the introduction of efficient technology, aligning spending, and reengineering business processes. The company's footprint of service locations throughout the U.S., Canada, and Latin America enable the Kemtah Group to provide local, reliable, and cost-effective IT support. More information about the Kemtah Group can be found on the web at <http://www.kemtah.com>.
